This Redemption Statement has been produced for

FARGOLINE S.A.

by

ENGIE ENERGÍA PERÚ S.A.A

confirming the Redemption of

962.940000

I-REC Certificates, representing 962.940000 MWh of
electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

**Av. Nestor Gambetta Km. 10, Ex Fundo Oquendo, Callao - Lima
Peru**

in respect of the reporting period

2025-01-01 to 2025-12-31

The stated Redemption Purpose is

Certificar que el suministro de energía correspondiente al periodo indicado proviene de fuentes 100% renovables. En tal sentido, se emite esta certificación para el siguiente punto de suministro: Nro. 2897032 – Callao.

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'incl' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'excl' means carbon offsets relating to these MWh may be traded independently at some point in the future.

Thermal plants emit carbon as part of the combustion process. While this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.

CERTIFICADO DE ENERGIA RENOVABLE

SGS certifica que **PLUZ ENERGIA** ha suministrado energía eléctrica durante el año 2025 a:

FERREYROS S.A.

Según el siguiente detalle:

Energía eléctrica suministrada: **3,131 MWh**

Periodo: 01 de enero al 31 de diciembre del 2025

Instalación (es): Panamericana Sur (altura KM. 48). Predio La Granja de mi Abuela Lote I-A Sub lote I-A1, sector Repartición, distrito de la Joya -Arequipa

Asimismo, acredita que una cantidad equivalente a la energía eléctrica suministrada a **Ferreiros S.A.**, ha sido adquirida por **PLUZ ENERGIA** como energía renovable certificada, por haberse generado de fuentes renovables e inyectada al sistema eléctrico interconectado nacional (SEIN).

SGS emite este certificado basándose en: El contrato y adquisición de energía renovable* certificada, presentados por **PLUZ ENERGIA**, en la facturación de energía suministrada a **Ferreiros S.A.** y en el análisis realizado por SGS.

Lima, 17 de abril del año 2026.

A handwritten signature in black ink, appearing to read "Julio", is positioned above the name of the Certification Manager.

Julio Ubarnes
Certification Manager
SGS del Perú S.A.C

Nota: *Certificado de Energía renovable de PLUZ ENERGIA N° PE 2026 600

Redeemed Certificates

Production Device Details

Device	Country of Origin	Energy Source	Technology	Supported	Commissioning Date	Carbon (CO ₂ / MWh)
Quitaracsa	Peru	Hydro-electric	Run of river	No	2015-10-09	0.000000

Redeemed Certificates

From Certificate ID	To Certificate ID	Number of Certificates	Offset Attributes	Period of Production	Issuer
0000-0225-0160-2140.000000	0000-0225-0160-2902.999999	763.000000	Incl	2025-07-01 - 2025-10-31	The Green Certificate Company (Central Issuer)

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'incl' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'excl' means carbon offsets relating to these MWh may be traded independently at some point in the future.

Thermal plants emit carbon as part of the combustion process. While this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.

This Redemption Statement has been produced for

FERREYCORP S.A.A.

by

ENGIE ENERGÍA PERÚ S.A.A

confirming the Redemption of

1.000000

I-REC Certificates, representing 1.000000 MWh of
